STORY

In a land far away there was a mystical village that the whole world loved and adored it was called Glacivania. Glacivania was a beautiful pristine snow covered ice village where a technologically advanced civilization of penguins have lived for many decades. But then one day Peng Son (Toby) went out on a journey and got himself into trouble with a ferocious dragon and when he cowered and ran away home the dragon followed him and destroyed his village.

In the destruction peng son was knocked out cold by the rubble and was buried by it. After the smoke had cleared and he woke up with a concussion his father Peng Dad (Major Bacon) arrived with his royal guards and was shocked to see his village in total destruction by the fearsome dragon. Major Bacon was so irate with his son he started to torment him and question him about what had happened here.

After a little while of recoup and recover Toby made a promise to his father Major Bacon that he would make this right with his father and find his family a new home to live and prosper. But for that to happen he has to take another journey into the icy wastelands into the danger zone known as Dead Wasteland.

GAMEPLAY

Training Area

The dead wasteland is a vile and treacherous place where only the brave bold and stupid may lurk to try and accomplish their goals. This dead zone will act as the training grounds for these adventurers to hone their skills so they can pass this evil place and defeat qupus the ferocious.

In small safe pockets in the zone that Major bacon has secured will be the place your father will help prepare you for the combat that ensues. You will meet helpful little npcs for the first time which will help you along the way. Whenever you need to call upon further information from these dudes you just need to press the o button. At the near end of the wasteland your father will tell you weather or not you are ready to continue on your journey to defeat the dragon you so rudely pissed off.

Structure/ Progress

Qupus might be scary and ferocious, but she certainly isn't stupid by any means. It's a very unfortunate fact but her lair is in the most dangerous of places to get to and is also hidden away because he doesn't want anybody to disturb him. Finding this entrance will be very tricky and will take lots of work and cunning to find him from the many allies you will gain in your journey. Exploration of the dead wastelands and many sub levels in his lair you will uncover 2 types of doorways that need to be dealt with in a variety of different methods that only qupus knows full well of.

Cubies

You will find cubies along the way in your journey and you will need these objects to complete various tricky puzzles that will unlock that levels you will need to conquer to gain new skills and abilities to prepare you against your fight with Qupus the Ferocious.

Torch-Ways

These door ways will be easily recognizable and easy to find as they will be covered by a thick coat of snow and ice which can only be broken when you capture enough torchs in your levels which you will need to melt and breakdown the wall to further your adventure to the evil dragons lair where you must defeat him.

Collectible Objects

Extra Lives

Taking the form of the ancient guardian of his race Pengotronics, these tend to lurk into the most awful of places for a reward for the silly adventurer.

Whalelings

Six of these scared and terrified whalelings are trapped and scattered through the world and it is up to Toby to help Artica save his pals from a terrible end.

Crabs

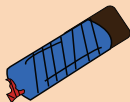

One of the other things that has been stolen while the dragon has been running amok is he has stolen Artica's favorite crabs which he uses as a food source. It is up to Toby to save the crabs if he is to get Artica's help and assistance along the way.

Cubies

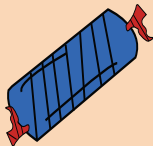

These ice cubes have magical powers and when they are completed and come together they help melt away the doors to enter new and interesting scary places to continue your journey in the vast dragon wasteland.

Icy Cone Energy Bars

Toby's energy bar is made up of 6 segments of gooey goodness which are often laying around because the dragonkin really hate the stuff and like to hide it because they are a huge dick to the penguins.

Icy Cone Energy Wrapper

Toby loves to collect his icy cone energy wrappers because they have prizes when he can continue to complete the weekly collection to get really awesome prizes. Several of these rewards can come from various missions and objectives in his journey to beat the dragon and find his new home.

Torchies

These fiery torches are a vital effort in the journey to stop the dragon of his terror because you will encounter many an obstacle and you will need these Magical torches to venture further into the wasteland to find and defeat the dragon.
